

# duralight® bathtubs

Beguiling, solid,  
technically perfect.  
A solid and sinuous embrace  
that is impossible to relinquish.

Owing to the extensive product  
range, these bathtubs can adapt  
to your space and to your every desire.  
Choose between **Paper**, **Feel**  
and **View** to find the ideal solution  
for your bathroom.

**paper** 

**Paper with Hydroline.**

Paper is the first solid surface material bathtub equipped with a whirlpool.

A world exclusive for Teuco: the nozzles - replaced by simple minimalist slits in the material - make for a truly elegant styling result.

For a multi-sensory experience, the slits can be illuminated with coloured light beams.

**paper** 

**Sit-on version.**

Paper emerges slightly from the water, to show its raised frame.

A solution that enhances the linear and modern shape of the bathtub.

# paper <sup>unlimited</sup>

An extensive range of bathtubs affording maximum versatility: in the choice of sizes, method of installation, in the possibility of adapting to any space, shaping one or more sides freely. Last but by no means least, the double shaped backrest gives your thoughts the comfort and rest they deserve.

Lines inspired by your thoughts.

## Custom solutions

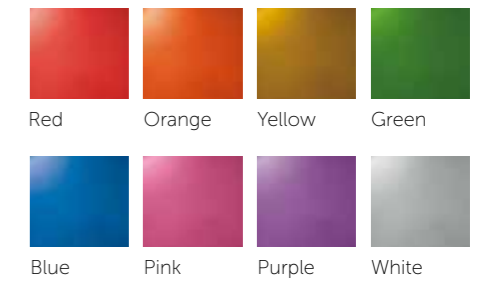

## COLOURS THAT BRIGHTEN UP YOUR DESIRES.

Teuco's Cromoexperience system enhances your senses while in water, lighting it up in cycles with the bright colours of the rainbow, to enjoy moments of relaxation while getting in touch with yourselves again.

## Cromoexperience

optional on all tub versions.

**ADD COLOUR TO EVERY FEATURE.**

The panels are available in three different shades of wood and in duralight®: white or lacquered. Pick your favourite among the 6 different colours available or specify your chosen RAL/PANTONE to apply the colour lacquer of your choice.

**Lacquered duralight® panelling**

PANTONE 116 C

PANTONE 200 C

PANTONE 259 C

PANTONE 448 C

PANTONE 468 C

PANTONE 644 C

**Wood finish panelling**

Limed oak

Anthracite oak

Wengé

**feel** 

**T10 feel. Oval free-standing bathtub.**

The material offers new sensations.

It feels like natural stone to the touch.

The personality of a contemporary sculpture to look at.

Also available in the undermount version.

190x120 cm / 200x130 cm

**feel** 

**T30 feel project.**

The clever use of different manufacturing technologies makes it possible to combine two pure geometric shapes to obtain a comfortable and appealing bathtub. The material offers solidity to the touch and the pleasure of smooth, continuous surfaces.

190x118 cm

TALOCCI DESIGN

DURALIGHT® BATHTUBS

52 | 53

**view** 

**T21 view corner version.**

In a perfect blend of shapes and transparency, the beguiling appeal of duralight® merges with the glass that runs along the entire front of both the rectangular and corner versions.
